## What's more?

users can also capture moments in the form of photos and videos and store them in their very own cloud storage.

with an interface of common language translators and GPS remote sensing, we bring to you cutting edge technology that not only detects the language being spoken in an area, but also translates it to the default language of the user.

## What's more?

users can also capture moments in the form of photos and videos and store them in their very own cloud storage.
